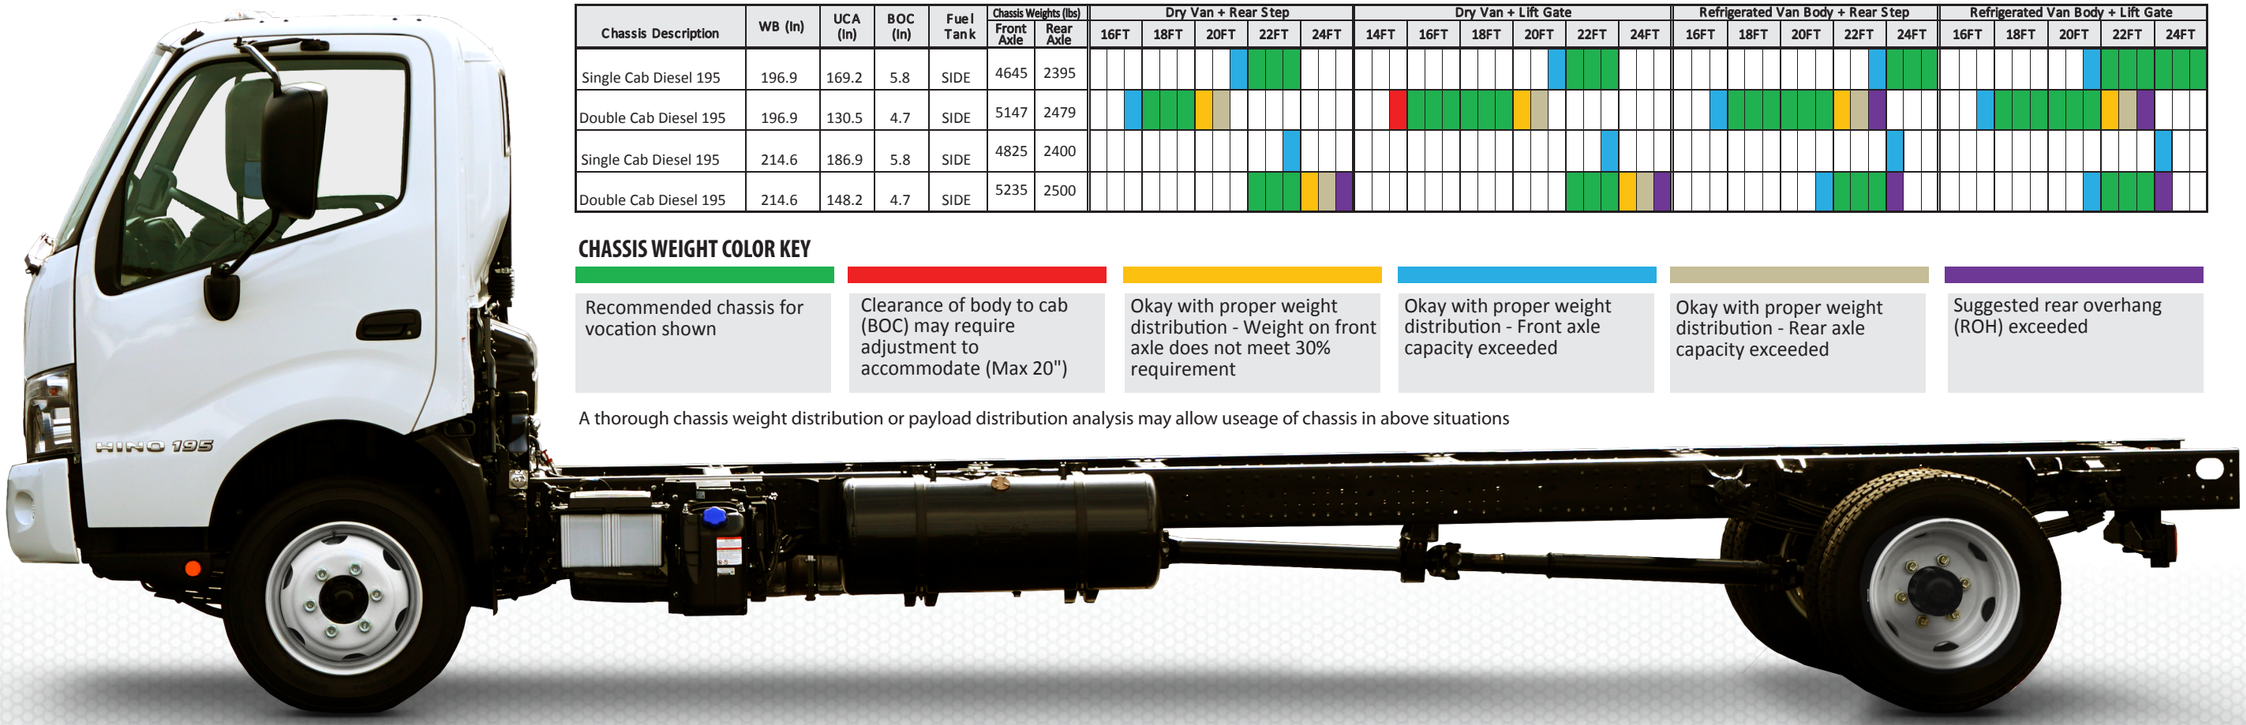
HINO BODY LENGTH SELECTOR CHART - REFERENCE ONLY

Chassis Description	WB (In)	UCA (In)	BOC (In)	Fuel Tank	Chassis Weights (lbs)		Dry Van + Rear Step					Dry Van + Lift Gate						Refrigerated Van Body + Rear Step					Refrigerated Van Body + Lift Gate				
					Front Axle	Rear Axle	16FT	18FT	20FT	22FT	24FT	14FT	16FT	18FT	20FT	22FT	24FT	16FT	18FT	20FT	22FT	24FT	16FT	18FT	20FT	22FT	24FT
Single Cab Diesel 195	196.9	169.2	5.8	SIDE	4645	2395																					
Double Cab Diesel 195	196.9	130.5	4.7	SIDE	5147	2479																					
Single Cab Diesel 195	214.6	186.9	5.8	SIDE	4825	2400																					
Double Cab Diesel 195	214.6	148.2	4.7	SIDE	5235	2500																					

CHASSIS WEIGHT COLOR KEY

- Recommended chassis for vocation shown
- Clearance of body to cab (BOC) may require adjustment to accommodate (Max 20")
- Okay with proper weight distribution - Weight on front axle does not meet 30% requirement
- Okay with proper weight distribution - Front axle capacity exceeded
- Okay with proper weight distribution - Rear axle capacity exceeded
- Suggested rear overhang (ROH) exceeded


A thorough chassis weight distribution or payload distribution analysis may allow useage of chassis in above situations
