**HINO AIR DEFLECTORS
GO HINO! GO GREEN!**

HINO AIR DEFLECTORS KEEP YOUR BUSINESS IN MOTION

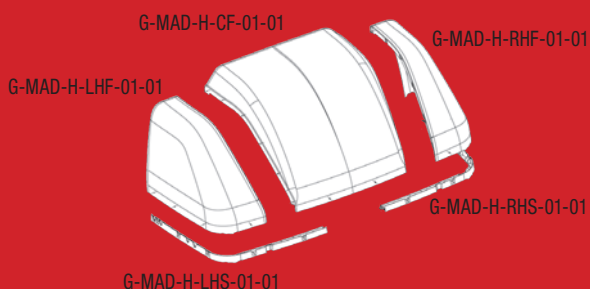

Reduce your carbon footprint!

Enhanced Truck Aerodynamics and a unique weight saving design allow the Hino Air Deflector to help you squeeze more mileage out of every gallon of gas!

Working with Global Vehicle Systems Inc., an innovator in wind deflector technology, Hino Parts has developed a new patented product that looks great and actually cuts your operating costs by reducing fuel consumption. Plus, the unique modular design makes installation fast and easy—it can even be mounted without the use of a hoist or crane! So now is the perfect time to dress up your truck with a genuine Hino Air Deflector.

- Studies show fuel savings of 5% for a stop and start suburban route and 7% for highway route*
- Robust construction for longer service life
- Modular design for easy installation
- Excellent cab-to-roof fit for maximum aerodynamic benefits
- Provides excellent “billboard” location for promoting your business with your logo
- Available in HINO white, red and black can also be custom painted to match any vehicle

* Testing in accordance with SAE J1321, SAE J1526 and TMC In-Service Procedure Type IV.

ASSEMBLY:

White: G-MAD-H-AS-01 • Black: G-MAD-H-AS-05 • Red: G-MAD-H-AS-07

Part Number	Description
G-MAD-H-AS-01	White Air Deflector Assembly
G-MAD-H-AS-05	Black Air Deflector Assembly
G-MAD-H-AS-07	Red Air Deflector Assembly
G-MAD-H-LHF-01-01	Left Hand Deflector Component
G-MAD-H-CF-01-01	Center Deflector Component
G-MAD-H-RHF-01-01	Right Hand Deflector Component
G-MAD-H-LHS-01-01	Left Hand Substrate Component
G-MAD-H-RHS-01-01	Right Hand Substrate Component
