HINO GENUINE FILTER KITS

HINO GENUINE FILTER KITS WILL KEEP YOUR BUSINESS IN MOTION

Use The Filters Matched To Your Engine!

- Specifically developed for your HINO truck engine from the leaders in filtration technology
- Oil & fuel filter in one convenient package
- For all 2005 and later HINO standard trucks
 - LTDFKITM for Light Duty 145,165,185 series
 - MDTFKITM for Medium Duty 238, 268, 268A, 338 series
- HINO genuine fuel filter replacement is recommended at 20,000 miles depending on duty cycle
- HINO genuine oil filter replacement is recommended at 6000-20000 miles depending on duty cycle and type of oil used
- It is recommended practice to replace the oil filter whenever you replace the fuel filter
- It is also recommended to use HINO genuine oil. HINO oil is blended with a precisely selected partial synthetic base stock to provide superior performance and protection for your engine
- Keep your HINO truck running right with genuine HINO filters and oil
