

HINO INSIGHT

BUSINESS INTELLIGENCE IS HERE:

A Toyota Group Company

HINO INSIGHT CONNECTED VEHICLE

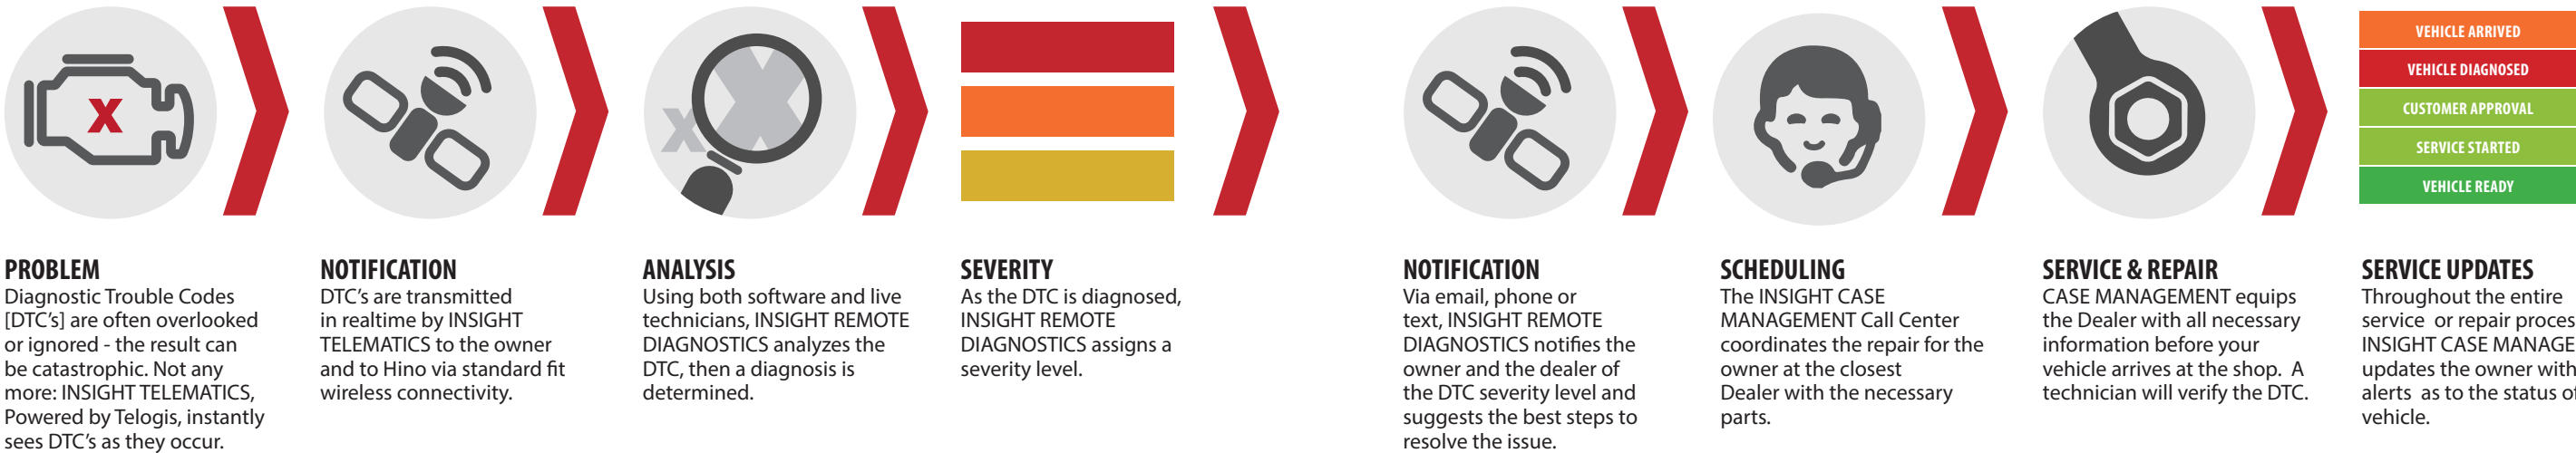

THE HINO INSIGHT CONNECTED VEHICLE. THIS IS BUSINESS INTELLIGENCE... STANDARD.

PERFORMANCE	NOTIFICATIONS	COMMUNICATION
Hino's connected vehicle platform enhances fleet safety and performance across key areas including economy, DVIR and integrated state mileage reporting.	Instant notifications allow owners to address things like DTC's or low DEF levels without delay. The result is less downtime and lower maintenance costs.	Great communication saves time and money. Hino INSIGHT integrates scheduling, service and reminder communications across the board.
FUEL ECONOMY Track economy by vehicle or entire fleet	DTC REPORTING & SEVERITY Hino DTC's reported instantly	SERVICE STATUS UPDATES Always know the status of your service stop
DIGITAL VEHICLE INSPECTION REPORTS Create and store DVIR records electronically	DEF LEVEL & QUALITY Alerts when DEF level is low or quality has been compromised.	PREVENTIVE MAINTENANCE REMINDERS Integrated preventive program reminders
MILEAGE BY STATE Seamless State Mileage reporting.	REGEN REPORTING Reports when a Regen is needed, started, interrupted and complete.	SCHEDULING Help from a dedicated Call Center
INDUSTRY BENCHMARKING Compare your fleet performance to others	GEOFENCE ALERTS Automatic monitoring of map boundaries	HISTORICAL RECORD KEEPING Every record filed seamlessly.

TELEMATICS + REMOTE DIAGNOSTICS + CASE MANAGEMENT THE INDUSTRY'S ONLY FULLY INTEGRATED CONNECTED VEHICLE PLATFORM... STANDARD.

Welcome to the future of vehicle ownership and management. Hino INSIGHT has one objective: Increase Uptime and efficiency, and it achieves that goal by integrating telematics with remote diagnostics and case management that works with you every mile on the road.

HINO INSIGHT. TOP LEVEL PLATFORM OVERVIEW:

TELEMATICS BY TELOGIS

MAPPING:

See all your assets on a single map with animated vehicle history trails

CUSTOMIZABLE ALERTS:

DEF Level, Speeding, Idle Time and more.

REPORTING:

Customized and standard reports including miles per state, fuel economy, and manual regeneration monitoring.

GEOFENCING

Get alerts when a truck has entered or departed from a designated area.

DRIVER MONITORING:

Including excessive speeding, harsh braking and acceleration.

HINO BENCHMARKS:

Compare your fleet to similar fleets in your region or nationally.

LOCATION DURATIONS:

Monitor time on site.

ROUTE OPTIMIZATION:

Send routes and make changes based on traffic to find the optimal route.

DVIR:

Vehicle inspection logs to keep your fleet DOT compliant.

HINO UPGRADES:

The following upgrades are available through Hino at the time of vehicle purchase.

- **SERVICE EXTENSION:** Standard INSIGHT Telematics Service extension, available in 2 and 4 years at time of purchase
- **NAVIGATION:** Use your favorite connected device (phone, tablet) and get truck specific navigation, available in 1, 3 or 5 year subscriptions.

REMOTE DIAGNOSTICS

DTC NOTIFICATION:

Instant notification of DTC's as they happen.

DIAGNOSIS:

Severity coding that provides the information to take action. Know if you can safely continue your work day or need to immediately get it to the nearest Hino Dealer.

REPORTING:

Diagnostic data from time of fault sent to your selected service provider, so they are prepared when your truck arrives.

MAINTENANCE REMINDERS:

Preventative Maintenance reminders based on your actual mileage.

CASE MANAGEMENT

INTEGRATED COMMUNICATIONS:

Three way communication between you, your Dealer and Hino Trucks.

CHANNEL FLEXIBILITY:

Communicate how you like: Phone call, text, or email. Respond to a text message and it is logged into the case history.

ESTIMATE TRACKING & APPROVAL:

Receive estimates right to your email and approve with a click of a button.

SERVICE STATUS ALERTS:

Receive real-time alert during the repair process, such as: Checked in, In Service, Awaiting Approval, Ready for pickup.

INTEGRATED RECORD KEEPING:

Historical Record of Maintenance for record keeping and resale.
